Mode of Teaching

The offline class is on the Blackboard platform and has 5 modules. This will consist of lectures reviewing the principles of CBCT technology and methods to achieve maximal diagnostic imaging. The timely discussions will cover radiographic anatomy, artifacts and signs of pathology, clinically-relevant CBCT technical factors, protocols, radiation dose as well as an expansive number of case studies. This will be followed by hands-on session will focus on the use of CBCT software and guide you through proper CBCT interpretation, using multiple clinical cases. Full instructions and your Blackboard credentials will be provided before the start of the offline classes. There will be a MCQ based final examination at the conclusion of the course. The course is well planned and consists of illustrated presentations, case studies, hands-on exercises and discussion
