Program Educational Objectives

At Rama University Computer Science and Engineering program will prepare its Post-graduates to:

- PEO1:** To produce post graduates who can contribute in research and development to the advancement of computer science and engineering.
- PEO2:** To impart knowledge and skills to analyze, design, test and implement diverse range of software.
- PEO3:** To develop team work capability so that they can work on multidisciplinary projects and exhibits high level of professional and ethical values.

Program Specific Outcomes

- Able to take on existing models, techniques, algorithm etc. for efficient solving problems.
- Able to design, develop and evaluate a new and innovative project which meet the desired needs of industry and society.
- Able to apply software engineering principles and practices to provide software solution.
- Able to take up higher studies, Research & Development and Entrepreneurships in the modern computing environment.

Program Outcomes:

The main outcomes of the M. Tech (CSE) program are given here. At the end of the program a student shall be able:

- PO1:** To apply fundamental and advanced scientific and engineering knowledge in the area of computer science and engineering.
- PO2:** To evaluate and critically analyze complex software engineering problems, identify their optimal solutions and be able to implement the solution.
- PO3:** To work upon unfamiliar problems through investigative studies and research and contribute to the development of technological knowledge available in the world.
