# Environment Policy

**DISCLAIMER** – This policy has been prepared by team 'Greenvio Solutions' based on audit. The inferences are used as a base in formulating the policy. The implementation is dependent on Institutional capabilities. Thus, presented plan of action is a feasible document to be practiced by the stakeholders.

## Policy statement

The said policy is applicable for the **academic year 2021-2022 and 2022-2023**. The study helps to denote positive and negative aspects of the site context w.r.t. ecological parameters.

## Policy motive (Green cover)

- The Institute maintains *more than 35% of site with green cover*
- The green cover is available in multiple forms that includes – *Natural plantations, potted plantations, green house, organic farm and various types of pocket landscape areas as gardens*
- Efforts to maintain these with *documentation, reflectance in the form of banners, placards, manuals for stakeholder sensitization* shall be undertaken.
- Furthermore, since the campus is a *developing site, scope to expand the green cover shall be explored*

## Policy objectives

- Regularize site context study as a consistent activity.
- Explore opportunity for *carbon sequestration study of environment, documentation and publishing of a book with all plantations in premises, develop site layouts with green cover for macro level (entire site) and micro level (Individual blocks)*

## Policy implementation

- Increase stakeholder sensitization about:
  - *Improving the environmental ambience*
  - *Green practice initiatives for societal development*
- *Fire & Life safety practices* enhanced with cooperation of stakeholders and local government
- *Explore opportunities to increase the vertical gardening using waste plastic bottles at multiple locations in premises.*
- *Undertake green zone development activities in nearby villages.*

## Policy history

The Indian and International Green Building Standards were referred to draft this policy.
