

## **Program Outcomes (POs)**

**PO 1.** Understand the oral health needs of communities and engage in community service through the provision of treatment to patients with special needs and underserved populations.

**PO 2.** Develop orthodontists who will have a thorough knowledge of the basic and clinical aspects of Orthodontics and Dentofacial Orthopedics and who will also have the skills and abilities to treat patients who present complex and unusual treatment needs.

**PO 3.** To provide optimal supervision of students by well-qualified staff through continued staff development programmes.

**PO 4.** To develop a critical mind for reading and understanding scientific literature and manufacturer's advertising claims.

**PO 5. Modern tool usage:** Create, select, and apply appropriate techniques, resources, and modern tools.

**PO 6. Ethics:** Apply ethical principles and commit to professional ethics and responsibilities and norms of the clinical practice..
